Subject: Re: San Jacinto Meeting on August 18
Date: 07/25/2011 04:23 PM

David,

Thanks for the offer of a meeting. However, it may be more useful if, prior to the meeting, you could send a memo describing the data gap issue you mentioned and perhaps an outline of the additional sampling you are suggesting. After the review, we should be more prepared to discuss the issues and could schedule a meeting at that time.

Regards,

Gary Miller, P.E.

Subject: San Jacinto Meeting on August 18

Gary – As we discussed in our call this morning, we would like to schedule a meeting with EPA, TCEQ and the trustees on the San Jacinto River Waste Pits Superfund Site on Thursday, August 18. The purpose of the meeting is to discuss data gaps related to tissue and sediment identified in the Draft Preliminary Site Characterization Report (PSCR), and the development of Sampling and Analysis Plan addenda to fill those data gaps. We can also discuss other issues that may come up during the agencies review of the Draft PSCR, but would like to focus on the data gaps because the scheduling of any future sampling efforts could affect the overall RI/FS schedule if they are delayed.

As we discussed, the meeting could be held in Austin on the afternoon of August 18, say from 1:00 – 5:00 if everyone is available. Please let us know, and we will arrange

our travel schedules appropriately.

Thanks,
David
